

## October 2012- Inauguration of IIMC Sikshangan Nagendrapur School

Dr Paul Graziotti and Mrs Penny Graziotti visited Nagendrapur in October 2012 for the official opening of the school they have funded IIMC to build in this location.

This primary school will be the first in this remote region, giving many first generation learners the opportunity to gain an education delivered by IIMC.

Being a concrete structure, the building will also double as a cyclone shelter for the villagers, providing a much needed community shelter.

The community welcomed IIMC staff, Penny and Paul and thanked them for this generous contribution towards equitable access to education for all.
